Astrophysics for Young People in a Hurry

By Neil deGrasse Tyson with Gregory Mone

Neil deGrasse Tyson has become one of the most recognizable and respected figures in science, beloved to curious kids. In this adaptation of his #1 New York Times Bestseller *Astrophysics for People in a Hurry*, Tyson has—for the first time—served up the universe in a handy, portable package designed specifically for young readers.

From the difference between a star and a supernova to what matter and dark matter really are, *Astrophysics for Young People in a Hurry* will turn busy kids into budding experts on the fundamental rules and unknowns of our universe. Dozens of color photos, infographics, and extra explanations make accessible even the trickiest concepts, including questions around the nature of space and time. Along the way, Tyson's characteristic wit ensures a journey packed with fun.

Astrophysics for Young People in a Hurry introduces young readers to an exciting field and the principles of scientific inquiry, fostering the “cosmic perspective” that outer space inspires in all of us.

Mindful Active Listening and Science Discussion Group

Schedule:

- Dates: From July 11 to August 29 (Total 8 Thursdays)
- Time: 8:00 - 9:00 PM
- Platform: Zoom
- Cost: \$70 per session, \$500 for all eight sessions

Objective:

Join our group forums to cultivate mindful active listening, engage in discussions, and inspire curiosity in science through book reading. This program integrates Social Emotional Learning (SEL) principles to help students develop essential skills such as self-awareness, empathy, and effective communication. Students will:

- Read two chapters each week before class.
- Participate in team discussions.
- Share their learnings and discoveries.
- Raise questions and engage in self-study.
- Interact with guest mentors who will share their knowledge and assist young readers.

Film List for Home Viewing to Enhance Learning:

- ET
- The Martian
- Apollo 13
- Gravity

Enhance your learning experience and dive deeper into the world of science with our carefully curated film list.
